6th Inspiring Quotes

Success is to be measured not so much by the position that one has reached in life as by the obstacles which he has overcome.
Web Development

TASK LIST

In web development, you learn how to build websites and web apps. This includes HTML, CSS, JavaScript, frameworks such as React or Angular, and server-side scripting.

TASK 1

E COMMERCE WEB

We are excited to assign you a task that will enhance your web development skills. Your assignment is to create an E-commerce web application using HTML, CSS, and JavaScript. You have the freedom to explore backend technologies as well to ensure a complete and functional website. Feel free to utilize online resources like YouTube for guidance and inspiration. This project will provide you with hands-on experience in designing user-friendly interfaces, implementing dynamic features, and understanding the fundamentals of E-commerce.

We encourage you to collaborate, ask questions, and showcase your creativity throughout this assignment. Good luck, and we look forward toseeing your impressive web apps!

TASK 2

SMART HOME AUTOMATION SYSTEM

Develop a web-based interface for controlling and monitoring smart home devices. Users can manage devices such as lights, thermostats, cameras, and security systems. Implement automation rules based on user preferences and schedules.

SUBMISSION DETAILS

You will have to provided task submission for each task(weekly task)

It's essential for each intern to complete all the assigned tasks in 3 month. If someone completes only two or three tasks, their internship may be considered incomplete or certificate will not be provided, So Please make sure to fulfill all the tasks assigned to you and submit in Submission form to ensure a successful Internship.
